2540 Rte. 9  
Malta, NY 12020

**Subject:** *AMD Fab 4X Project*  
*Towns of Malta and Stillwater, Saratoga County, New York*

Dear Mr. Tozzi:

Please accept this correspondence from Saratoga County Water Authority as part of the SEQRA record for the proposed AMD Fab 4X Project located in the Towns of Malta and Stillwater, Saratoga County, New York.

This letter is to confirm that Saratoga County Water Authority has a plan in place to serve the water requirements for AMD FAB 4X. The plan includes a raw water intake in the Hudson River in the Town of Moreau, a water treatment plant and transmission facilities with a design capacity of 14 million gallons per day. The plan is dependent upon the Authority obtaining \$33 million in promised State grant funding and obtaining \$34 million in construction funds through the issuance of bonds.

The work being undertaken by the Saratoga County Water Authority, together with water main work being undertaken by NYSDOT as part of the Round Lake Bypass Project, water main work being undertaken by the Towns of Malta & Stillwater as part of the construction of the Luther Forest Technology Campus Site Roadways Project, and a storage tank and water main work being undertaken by the Luther Forest Technology Campus Economic Development Corp., will provide the water infrastructure to deliver water to FAB 4X.

Should you have any questions or concerns regarding this correspondence, please contact me at (518) 885-1070.

Sincerely,

William D. Simcoe, P.E.
